## Dorset Collection

**MODERN AND VERSATILE  
LIMESTONE EFFECT.**

L'abbinamento con i vivaci pigmenti della color collection Nuances mette in luce la versatilità e la modernità della pietra in gres porcellanato. Dorset accoglie le combinazioni più sofisticate, armonizzando con sorprendente naturalezza diverse suggestioni materiche e cromatiche.

The combination with the vivid pigments of the Nuances color collection highlights the versatility and modernity of porcelain stoneware. Dorset houses the most sophisticated combinations, harmonising different material and colour suggestions with astonishing ease.

**CROSS CUT LOOK:  
CLOUDY AND RICH WITH  
HYPER-REALISTIC DETAILS.**

Il look Cross Cut riproduce l'estetica nuvolata che si ottiene tagliando la pietra secondo il senso di stratificazione del materiale lapideo. La nuova superficie Dorset riflette le variazioni di colore e i morbidi contrasti nati dal processo di sedimentazione, rivelando una materia equilibrata e bilanciata.

The Cross Cut look reproduces the cloudy aesthetics achieved by cutting the stone according to the direction of layering of the stone material. The new Dorset surface reflects the colour variations and soft contrasts created by the sedimentation process, revealing a well balanced material.

### VEIN CUT LOOK: A TONE-ON-TONE MINERAL FLOW.

La versione Vein Cut riflette il taglio della pietra perpendicolare al verso di stratificazione. Le venature catturano il fascino delle texture direzionate, con un contrasto cromatico ricco e delicato al tempo stesso.

The Vein Cut version reflects the cut perpendicular to the direction of layering of the stone. The veins capture the charm of the directional textures, with a colour contrast that is rich and delicate at a time.

Die Version Vein Cut spiegelt den Schnitt des Steins senkrecht zur Schichtungsrichtung wider. Die Maserungen fassen den Charme der gerichteten Texturen ein, mit einem Farbkontrast, der gleichermaßen reich und zart ist.

La version Vein Cut reflète la découpe perpendiculaire au sens de la stratification de la pierre. Les veines saisissent le charme des textures qui suivent une direction, avec un contraste chromatique riche et délicat.

Listello 3D è un decoro che abbinava un listello posato in modo planare ad un listello il cui lato maggiore viene posato in sovrapposizione, creando un modulo dall'originale effetto di tridimensionalità. Ciò è possibile grazie all'incisione effettuata sul retro, che in fase di installazione genera l'effetto 3D.

Listello 3D è disponibile nella versione Vein Cut e viene venduto in scatole contenenti quattro listelli, due 20x120 cm (di cui uno inciso nel retro) e due 40x120 cm (di cui uno inciso nel retro).

Listello 3D is a deco which combines one piece listel installed flat with a listel piece whose longer side is laid overlapping. That creates a module with an original three-dimensional effect. This is possible thanks to the engraving made on the back, which generates the 3D effect once installed.

Listello 3D is available in the Vein Cut version and is sold in boxes containing four pieces, two in size 20x120 cm (one of which is engraved) and two in 40x120 cm (one of which is engraved).
